

April 6, 1979

LB 273

language that I'm adding is to connect the two statuses that are involved in this bill together. The person who claims the exemption at this point must be both disabled and a veteran. However, they need not be a related or annexus between the two. For example, a veteran of World War II who through some unfortunate circumstances in 1971 has an injury that disables him qualifies for this exemption. It's my belief that the virtue of the exemption is as a reward for service to the country and for the...and in recognition of the price paid for that service by the creation or the accumulation of a disability to a soldier. So, while the original bill had just the term veteran in it, and while the Committee changed that to person, it's now my belief that with all of the agreed parties, including the Disabled Veterans agreeing, we should connect those two statuses, disability and being a veteran, by saying that those veterans who are disabled in service related accidents shall be covered by the exemption. There are in Lancaster County twenty-seven people given such an exemption. Each one of those twenty-seven has given evidence that it was a service related accident, or a service related disability. However, if you'll read the statute, it's not necessary that they do so. So I would move the adoption of the language and the amendment to the Murphy amendment.

SPEAKER MARVEL: Senator Stoney, do you wish to speak to the Landis amendment?

SENATOR STONEY: Mr. Speaker and members of the Legislature, a question of Senator Landis please.

SENATOR LANDIS: Yes, Senator Stoney.

SENATOR STONEY: Senator Landis, so that I might understand, is this now exclusively for veterans of the United States who have service related disability?

SENATOR LANDIS: Yes, it is, Senator Stoney.

SENATOR STONEY: It's exclusively for them...the bill?

SENATOR LANDIS: That is correct.

SENATOR STONEY: Thank you.

SPEAKER MARVEL: Senator Keyes....speaking to the Landis amendment.

SENATOR KEYES: Mr. Speaker, I cannot change Landis' amendment,
